

Gardening Advice Line at Milner Gardens & Woodland

Supported by the Vancouver Island Master Gardeners Association

Please complete this background information sheet and include it with your sample*

Contact Name (of person submitting sample):	
Phone Number:	
Email Address:	
City/area sample was taken:	
Date sample was taken:	

Is this a plant to be identified?

Describe the location where the plant grows. (e.g., Sun/shade, moisture, slope)	
What kind of soil is the plant growing in?	

For help with pests, diseases and disorders please complete as much of the following as possible:

Common and/or Latin name of plant (if known)	
When did this problem first appear?	
Are nearby plants being affected and how?	
Which parts of the plant are affected? How seriously affected is the entire plant?	
Have you noticed any other signs or symptoms?	

Has the plant been disturbed lately, has its watering schedule changed, or are there other environmental changes (use of sprays, fertilizers etc)?	
Describe the location where the plant grows. (e.g., Sun/shade, moisture, slope)	
What kind of soil is the plant growing in?	

***Samples must be delivered in a ziplock style plastic bag and accompanied by a completed background information sheet to be accepted at the Milner Gardens & Woodland Welcome Center during open hours between Saturday and 2:00 Tuesday.**
